

HYCON HH20 BREAKER

ANTI-VIBRATION HANDLES

WORKS REGARDLESS OF DUST AND WATER

PRODUCT FEATURES

The HYCON HH20 is a compact all-round breaker. It is designed for breaking concrete, asphalt, frozen ground, etc. Despite its low weight, it handles even the most challenging jobs.

It comes standard with a vibration-reduced handle for high operator comfort.

HH20 is the preferred choice of contractors, municipalities, utilities, armies, railroad workers, etc., and is perfect for rental. Furthermore, it performs similarly or better than any 30-kg electric breaker.

The breaker can be connected to any HYCON power pack with 20-lpm option power packs and other hydraulic power sources.
