

HYCON HH20RV BREAKER

ANTI-VIBRATION HANDLES

HIGH STRIKING POWER

PRODUCT FEATURES

HYCON HH20RV is a compact all-around 24 kg breaker with reduced vibration (32 x 160 hex). Despite its low weight, it handles even the toughest jobs.

The breaker is designed to break concrete, asphalt, frozen ground, brick walls, etc.

Because of the very efficient vibration-reduced handle, it has

a vibration level of only 4.8 m/s² (among the lowest vibration levels in the market), ensuring maximum operator protection. Furthermore, it performs similarly or better than any 30 kg electric breaker. HH20RV is the preferred choice of municipalities, contractors, utilities etc. and is perfect for rental.

The breaker can be connected to the HYCON power packs and other hydraulic power sources.

HYDRAULIC BREAKER HH20RV

Item no. HH20RV (HEX 32x160 mm)	CE 1010120
Weight [kg / lbs]	23.9 / 52.7
Oil flow [LPM / GPM]	20 / 5
Working pressure [bar / psi]	110 / 1600
Max pressure [bar / psi]	160 / 2320
Tool shank HEX [mm] (optional)	32 x 160
Blow frequency [Hz]	1480
Blow energy [joule]	60
Sound power level LWa [dB]	106
Vibration level, 3 axis [m/s ²]	4.8

ACCESSORIES

Dust suppression kit, item no. 3030051. HYCON water container item no. 1113286.
