

# HYCON KILROX ROCK SPLITTER

## PRODUCT FEATURES

Kilrox hydraulic rock splitters are Terox's key product. Robust and designed for tough conditions, tests show that they are likely to be the best, both in terms of performance and ease of use.

Ergonomically designed and efficient, they handle the toughest terrain effectively, whilst making a controlled split in the rock. **No booster is needed - Connects directly to powerpack!**

When splitting a rock in a controlled or confined space is needed, Kilrox operates without noise, splashes, dust or fumes, and completely without vibrations. Simply an environmental winner.

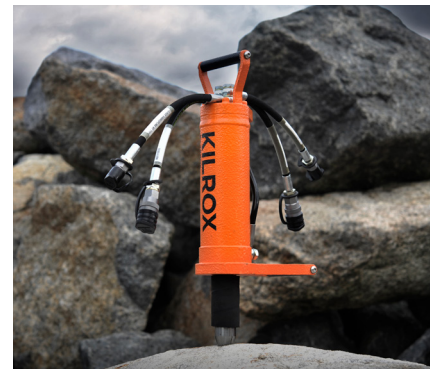

It's economical too, being easy to use with superior capacity compared with traditional tools or techniques. The Kilrox Rock Splitter fits perfect with the HYCON HRD30 Rock Drill.

## KILROX ROCK SPLITTER

Item no.	3030070
Required oil flow, l.p.m.	5,9
Required oil pressure, max bar	220
Feather dimension	Ø22 - Ø32
Depth, mm	350
Splitting force, Tonnes	150 - 300
Weight, kg	13,5
<b>Including Ø22 feather as standard</b>	

## ACCESSORIES

Feather	Item no.
Feather Ø22	KR165-01-22000
Feather Ø30	KR165-01-22001
Feather Ø32	KR165-01-22032
Wedge	KR165-01-22002
