

HYCON HPP27V MULTIFLEX POWER PACK

THE PREFERRED CHOICE FOR HEAVY DUTY TASKS

EPA APPROVED

PRODUCT FEATURES

The HPP27VMF is the most powerful petrol-driven power pack in the HYCON product range.

The power pack is driven by a 27 hp Briggs & Stratton Vanguard engine that delivers an output flow of either single flow of 1 x 20, 30, 40, 60 lpm or dual flow of 2 x 20, 30 lpm.

Not CE approved - only for sale outside of the EU.

The power pack is the preferred choice for heavy-duty tasks, as it can handle even the most demanding tools and jobs.

The dual flow is perfect when you want to run two tools simultaneously, for instance, an 18" saw and a breaker or two 30 lpm pumps.

The power pack is EPA approved.
